School: 1

9. What type of organisation are you representing?

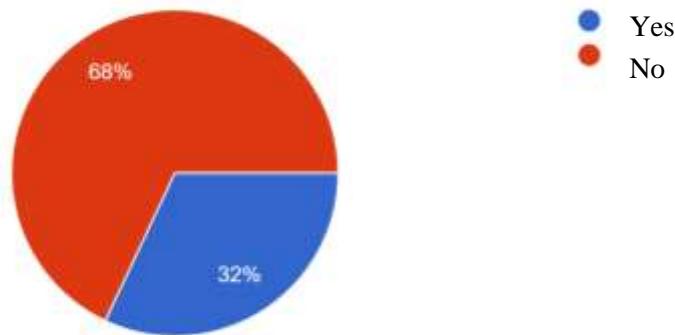

25 answers

10. Have you received any training related to sustainability or sustainable development (either through your work or personal interest)?

25 answers

11. If you have received any kind of training, please provide details (level, duration, content etc.)

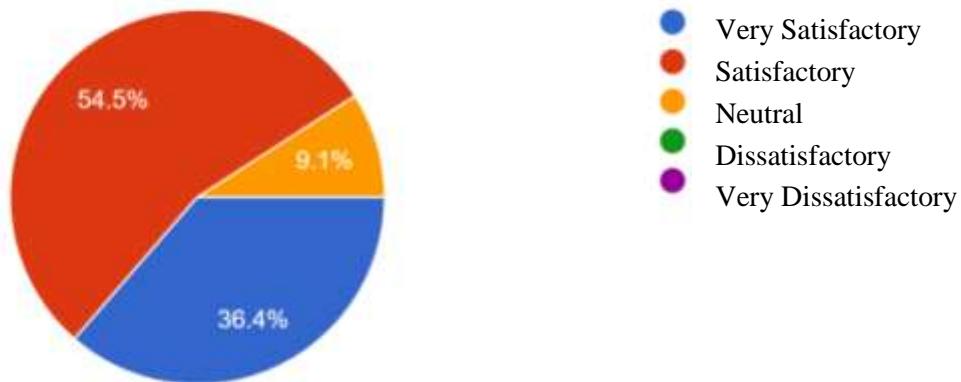

8 answers

- Through European programs that I managed during my tenure as deputy mayor of DA (2014-2019) and now as Ngo
- In the framework of the Postgraduate Studies we dealt in depth with the issue of Sustainable Development and Sustainability and the connection with Culture, in the sense that culture and arts, the widely understood Culture, can contribute to the sustainable development of cities, to strengthening of sustainable, holistic, anthropocentric development.
- Seminars
- From my years of volunteer experience with WWF and Fair Trade Hellas. I have no formal education.
- through European programs, and as a PhD candidate in my research on "the evolution of regional policy
- Through workshops and seminars, as well as through "action-research" research activities
- information seeking, self-education of personal interest
- Seminars of Environmental Education Centers

12. If you have received any kind of training, you consider that it was:

11 answers

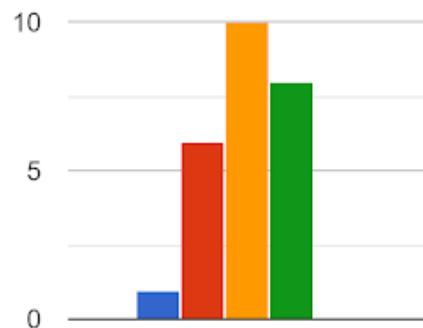

13. In your opinion, how successful is your city in terms of the management about the Sustainable Development Goals of the UN mentioned below. Please rate

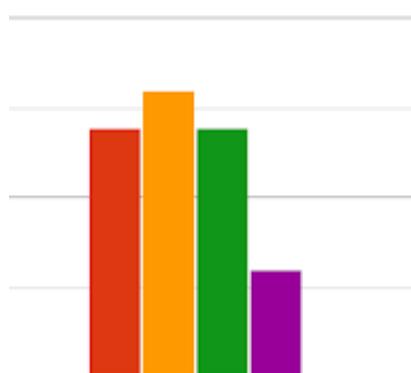

25 answers

- EXCELLENT
- GOOD
- FAIR
- POOR
- VERY POOR

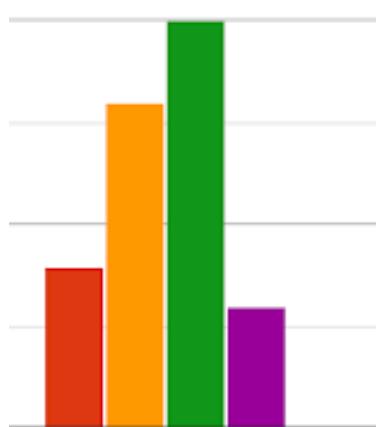

Social inequality

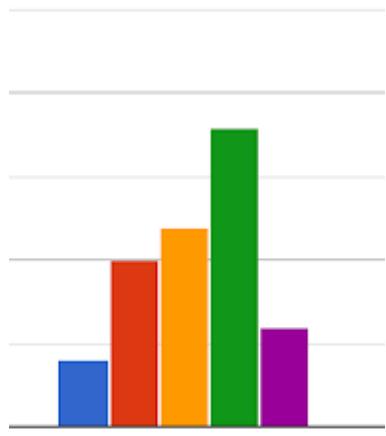

Immigration

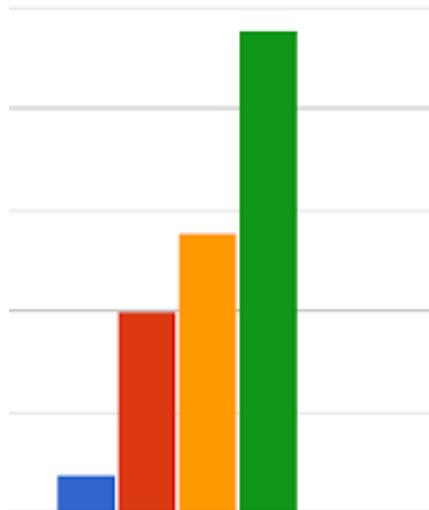

Traffic

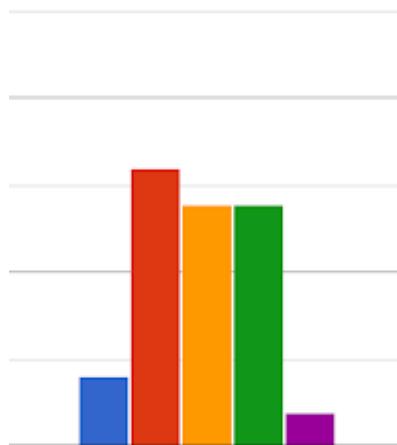

Environmental pollution

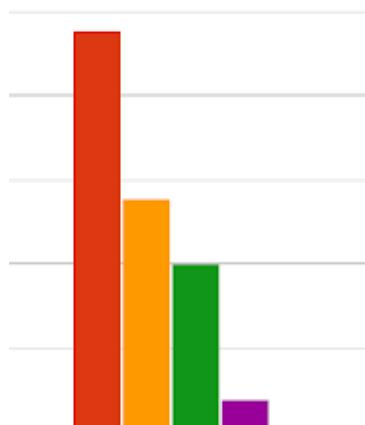

Unemployment rate

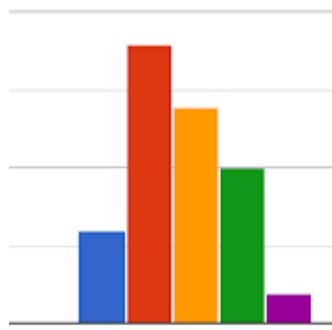

Wellness and Prosperity

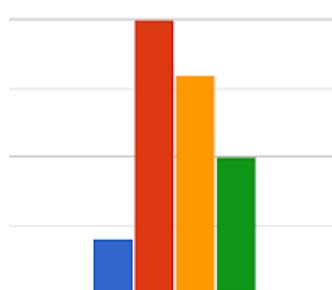

Crime rate

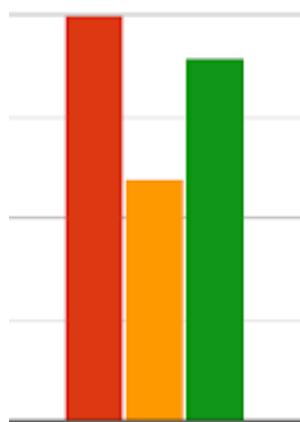

Cleanliness

Peace and Justice

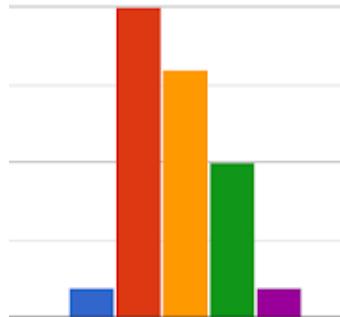

Poverty

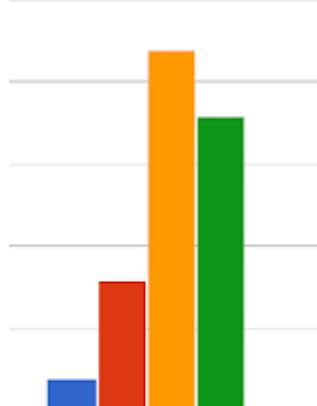

Financial resource management

Lack of infrastructure

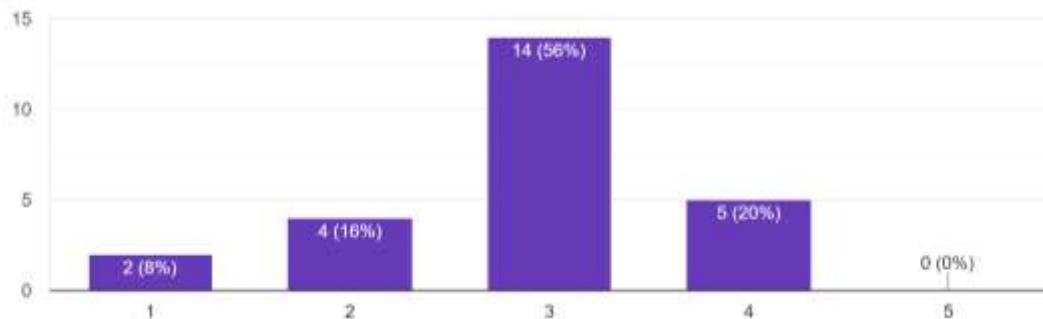

14. Based on your municipalities/ community's management strategies, at what level do you think it can successfully contribute in achieving the Sustainable Development Goals of the UN mentioned above?

25 answers

1= Excellent 5= Very Poor

15. What can be done to improve further training in your opinion?

16 answers

- Information in schools and workshops in municipalities
- To activate the services of the Municipality, with skills development, specialised staff, data collection and acquisition of a targeted strategy
- In the light of the international crisis since 2008 and the increasingly important role that cities are playing in the global economy, resilience, as a concept and as a goal, is becoming increasingly central to the development of policies for the city. In the same way that cities are called upon to develop their capacity to manage natural disasters, they are called upon to develop their ability to reorganize and adapt after any possible disruption of normalcy (social, economic, environmental). In the most important field of education, the concepts of sustainable development and resilience must be clarified and dynamically linked, and the content of development that is both ecocentric and anthropocentric must be emphasized.
- Transparency at the state level. The public does not know what is really going on.
- More open actions with the participation of the citizens
- Seminars
- INFORMATION - EDUCATION
- Information
- More information
- Live information of citizens and institutions locally
- SYSTEMATIC EDUCATION FROM YOUNG AGE
- after the completion of any training to be given incentives and opportunities for practical application
- Cooperation of institutions
- Information of the public
- To pass the education for the sustainable development in the school
- Training programs in human resources

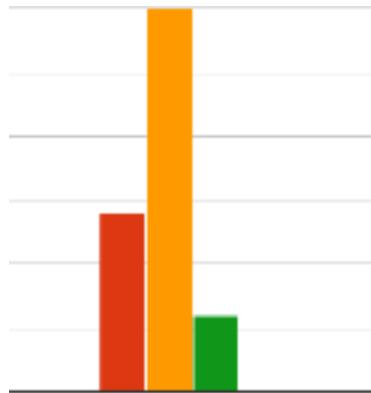

16. From United Nations SDG agenda, do you think that by 2030 your Municipality/Community will be able to achieve:

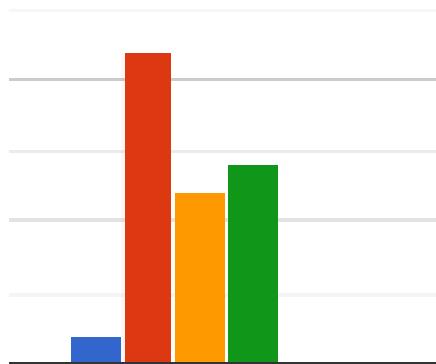

25 answers

- Strongly Agree
- Agree
- Neither Agree nor Disagree
- Disagree
- Strongly Disagree
